

5-Digit Electronic Hand Tally, Series L17

L17BI

ENM's L17 Series, electronic hand tally, is powered by an internal battery and comes in a compact size for ease of use. This small unit fits easily in your hand and has many functions.

The L17 Series hand tally has two different modes for keeping counts. It can act as an up counter or down counter. The unit can be reset easily with a press of a button. The unit also has an option to let the user set the display to a specific value. There is also a sound option included in this unit which makes a beeping sound every time you increment (there is an option to turn the sound on and off). Finally, the unit has a locking feature included which can prevent accidentally incrementing or decrementing.
